

Symposium: From Public Enterprise and Privatization Towards Sectoral Mixes

ABSTRACT

Public Enterprise Reform in Fiji: Policy Implementation and Reversals

Jim McMaster

This article reviews the evolution of Fiji's public enterprises reform program since 1993 and considers the impact of the change of government in 1999, the May 2000 coup and the further government changes that followed. Case studies are presented on the failed privatization of the Government Shipyard and the corporatization of the Civil Aviation Authority.
